The good thing is that the longer-term, more encompassing study is being done outside of the emergency response. It also seems that OEM is taking an initial lead role in the development of a study plan. In the absence of being given a POC in OEM, I would contact Dana Tulis.

Judy Peter/Peter, Would you please help answer the watershed question? Note short time frame.

Martin, Deb, Johanna – FYI. Who, associated with the response, do we need to communicate and coordinate this with?

Karl and Maggie, may need your help with the final item below.

Bert Garcia

Director, Ecosystems Protection Program

EPA Region 8

Peter Monahan or Judy Bloom might know the particulars of current plans and activities in that area. I'll ask Cyd and Adam about a GRTS pull for recent year projects.

EOC desk officer walked me through dialogue to date re: next steps. Transitioning from Emergency response to programmatic next steps.

- Admin meeting Saturday with head OEM and ORD. Admin direction: We want to be involved as continuing presence in that area and want to be engaged in watershed planning in that area. Wants us to put something together what we will do with existing resources to help the states going forward.

Deliberative Process/Ex. 5

Deliberative Process/Ex. 5

David Goldbloom-Helzner and Brian Pickard will be our tagteam contacts in EOC for this effort.

Bert – I'll give a call
